

Under the Service Occupation Tax Act, servicemen are taxed on tangible personal property transferred incident to sales of service. See 86 Ill. Adm. Code Part 140. (This is a GIL.)

April 7, 2003

Dear Xxxxx:

This letter is in response to your letter dated December 5, 2002. The nature of your letter and the information you have provided require that we respond with a General Information Letter, which is designed to provide general information, is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120(b) and (c), which can be found on the Department's website at www.revenue.state.il.us/Laws/regs/part1200/.

In your letter, you have stated and made inquiry as follows:

I am writing per a conversation I had today with one of your accountants concerning the filing of a Multiple Site Form for August 2002, September 2002, and October 2002. AAA has field service representatives that travel the state to repair the customer's equipment. The serviceman's parts inventory is warehoused at their home and in their car. When the parts get depleted, we ship from STATE to replace their inventory.

AAA has not had inventory at their office in CITY, IL. for a couple of years. The accountant I spoke with advised me to notify the Illinois, legal division so there would not be any future problems in handling our account.

If you have any questions please call.

Retailers' Occupation Tax and Use Tax do not apply to receipts from sales of personal services. Under the Service Occupation Tax Act, servicemen are taxed on tangible personal property transferred incident to sales of service. For your general information we are enclosing a copy of 86 Ill. Adm. Code Part 140 regarding sales of service and Service Occupation Tax.

The purchase of tangible personal property that is transferred to service customers may result in either Service Occupation Tax liability or Use Tax liability for the servicemen, depending upon how the serviceman is classified. There are four ways that the tax can be calculated: (1) separately stated selling price; (2) 50% of the entire bill; (3) Service Occupation Tax on cost price if they are registered de minimis servicemen; or, (4) Use Tax on cost price if the servicemen are de minimis and are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act.

Using the first method, servicemen may separately state the selling price of each item transferred as a result of sales of service. The tax is based on the separately stated selling price of the tangible personal property transferred. If servicemen do not wish to separately state the selling

price of the tangible personal property transferred, those servicemen must use the second method where they will use 50% of the entire bill to their service customers as the tax base. Both of the above methods provide that in no event may the tax base be less than the cost price of the tangible personal property transferred. Under these methods, servicemen may provide their suppliers with Certificates of Resale when purchasing the tangible personal property to be transferred as a part of the sales of service. Upon selling their product, they are required to collect the corresponding Service Use Tax from their customers. See 86 Ill. Adm. Code 140.106.

The third way servicemen may account for their tax liability only applies to de minimis servicemen who have either chosen to be registered or are required to be registered because they incur Retailers' Occupation Tax liability with respect to a portion of their business. Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). See, 86 Ill. Adm. Code 140.101(f) enclosed. This class of registered de minimis servicemen is authorized to pay Service Occupation Tax (which includes local taxes) based upon the cost price of tangible personal property transferred incident to sales of service. Servicemen that incur Service Occupation Tax collect the Service Use Tax from their customers. They remit the tax to the Department by filing returns and do not pay tax to suppliers. They provide suppliers with Certificates of Resale for the property transferred to service customers. See 86 Ill. Adm. Code 140.108.

The final method of determining tax liability may be used by de minimis servicemen that are not otherwise required to be registered under Section 2a of the Retailers' Occupation Tax Act. Servicemen may qualify as de minimis if they determine that their annual aggregate cost price of tangible personal property transferred incident to sales of service is less than 35% of their annual gross receipts from service transactions (75% in the case of pharmacists and persons engaged in graphic arts production). Such de minimis servicemen may pay Use Tax to their suppliers or may self-assess and remit Use Tax to the Department when making purchases from unregistered out-of-State suppliers. Those servicemen are not authorized to collect "tax" from their service customers because they, not their customers, incur the tax liability. Those servicemen are also not liable for Service Occupation Tax. It should be noted that servicemen no longer have the option of determining whether they are de minimis using a transaction by transaction basis. See 86 Ill. Adm. Code 140.109.

For your general information, please see the enclosed copy of Sec. 270.115 of the Home Rule Municipal Retailers' Occupation Tax for guidance concerning jurisdictional questions. In general, the imposition of the various sales tax related local taxes in Illinois are triggered when "selling" occurs in a jurisdiction imposing a tax. The Department's opinion is that the most important element of selling is the seller's acceptance of the purchase order. Consequently, if a purchase order is accepted in a jurisdiction that imposes a local tax, that tax will be incurred.

The tax rate is fixed by the location of the seller, not the delivery location. The fact that the item being sold is shipped from out-of-State or from another Illinois location is immaterial for purposes of local taxes if the sale occurs through order acceptance in an Illinois jurisdiction imposing a local tax. For these transactions the local tax will be incurred. Although 86 Ill. Adm. Code 270.115 deals with the municipal Home-Rule taxes, the principles outlined in this regulation apply to all local taxes administered by the Department. We are not certain, given the limited information you have provided, whether the provisions of subsection (f) of this regulation may be of interest to you.

If a purchase order is accepted outside the State, but the property being sold is located in an Illinois jurisdiction that has imposed a local tax (see, for example, Section 270.115(b)(3)), then the

location of the property at the time of sale will determine where the seller is engaged in business for the purpose of determining the imposition of applicable local sales taxes.

I hope this information is helpful. The Department of Revenue maintains a website, which can be accessed at www.revenue.state.il.us. If you have further questions related to the Illinois sales tax laws, please contact the Department's Taxpayer Information Division at (217) 782-3336.

If you are not under audit and you wish to obtain a binding Private Letter Ruling regarding your factual situation, please submit all of the information set out in items 1 through 8 of Section 1200.110(b).

Very truly yours,

Melanie A. Jarvis
Associate Counsel
